

Professional Learning Overview

# A partner invested in educator success

HMH partners with educators all throughout the year to provide guided learning experiences that build confidence and support them as they work towards their professional goals.

## Personalized support for every stage of your journey

Included with your program subscription

**Getting started.** Start strong with an HMH coach-led session. Understand program design, lesson flow, and digital resources, and walk away prepared with a comprehensive How-To Guide.

**Build teacher confidence from day one.** Teachers starting any time of year can get up and running quickly with Teacher Success Pathways. Self-paced sessions guide them to plan, teach, and assess learning with confidence.

**Experience yearlong professional growth.** Teacher's Corner® brings real-world classroom videos, live PD, and on-demand learning, while Leaders Corner® delivers resources, live events, reports, and guides to drive successful program implementation.

“Since adopting HMH’s professional learning solutions, we’ve seen significant improvement in both teacher confidence and our students’ performance.”

– Jonathan P., School Leader

## Personalized Coaching for Every Stage of Your Journey

HMH instructional coaches provide year-round support to help educators meet their goals, from program implementation to personalized teaching strategies, every step of the way.

**Partner with an HMH Coach for personalized support.** HMH *Coachly*® is a year-round subscription that connects teachers with a thoughtfully matched instructional coach, providing unlimited, personalized support within their HMH curriculum platform. Through tailored professional learning, coaches help educators apply best practices and bring pedagogy to life in daily classroom instruction.

**Connect evidence-based practices.** Build instructional confidence with HMH Program-Aligned Courses by turning evidence-based practices into everyday classroom action.

These personalized learning experiences connect research to practice and, with guidance from an experienced coach, help teachers bring pedagogy from concept to classroom.

## Collaborative partnerships for leaders and teachers

The Center for Model Schools™ helps leaders and teachers create the conditions for success using the 5Essentials® framework. We provide research-backed strategies that strengthen school practices and instruction to improve student outcomes and drive sustainable growth.
