

# Center for Model Schools™

Leaders make it happen.

## Strategizing for Success: Crafting a Strategic Plan

Partner with the **Center for Model Schools** to create a Five-Year Strategic Plan that drives sustainable success. Our expert-guided process ensures inclusive stakeholder input and provides insights from seasoned leaders to help your district achieve goals, ensuring every student is in the Model School they deserve.

Our **Strategic Planning** process is grounded in **three phases**:

### Phase 1

#### Analyze the current state

- ✓ Conduct a comprehensive current state analysis to inform your Strategic Planning.

### Phase 2

#### Develop the Strategic Plan

- ✓ Create an outcomes-driven plan that drives measurable improvements across the district.

### Phase 3

#### Implement the Strategic Plan

- ✓ Launch and implement the plan. Leaders will receive targeted coaching to foster a culture of academic, social, and emotional growth.

This strategic planning process provided WCPS, together with our partners, the opportunity to reflect and engage our students, staff, and community about the current state of our service to students while also charting where we want to be as a school system in the future

—Dr. David Sovine  
Superintendent  
Washing Co. SD, MA
