FOR TEACHERS

Getting started with *Into Math* and *¡Arriba las Matemáticas!*

We understand that implementing a math program takes support, and we're here for you every step of the way! HMH's blended professional learning delivers what teachers need, when they need it, with Getting Started and follow-up sessions, Teacher Success Pathways, and Teacher's Corner® to help teachers and students to thrive.

Initial implementation support

Getting Started session: Kick off your implementation with engaging in-person or live online sessions designed to build teacher confidence. Teachers will get to know the program organization, lesson structure, and digital resources available to them on the *HMH Ed*™ learning platform. With the support of an HMH® instructional coach, teachers will leave the session with an understanding of their program and a Digital Program How-To Guide.

The number of Getting Started sessions is determined by the number of student digital licenses/packages.

Into Math and ¡Arriba las Matemáticas! How-To Guide

During our time together, you'll learn the essential components of *Into Math and ¡Arriba las Matemáticas!* and be prepped and ready to plan your first lesson as you continue on your Teacher Success Pathway.

Today's learning objectives:

1. **Identify** how *Into Math and ¡Arriba las Matemáticas!* fits within your instructional block.
2. **Explore and select resources** to begin planning and teaching.
3. **Prepare for next steps** on your math program learning plan.

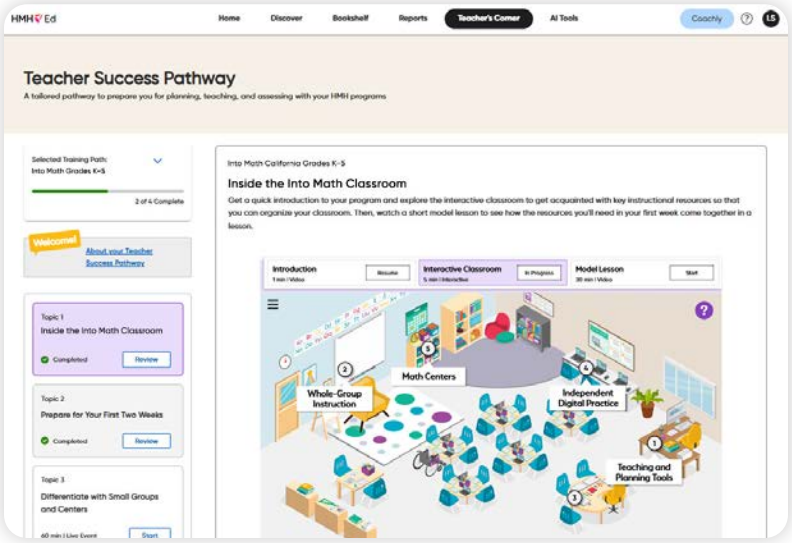
Teachers receive a comprehensive How-To Guide during their Getting Started session that they can continue to reference throughout the school year.

Included with program purchase

FOR TEACHERS

Teacher Success Pathways

We want all teachers to feel confident teaching with *Into Math* and *¡Arriba las Matemáticas!*, so our professional learning is focused on supporting teacher success in the first 30 days, even if they are new to teaching math. Every teacher receives a Teacher Success Pathway aligned to their program and grade level. This guided learning pathway includes a series of topics to support them with planning, assessing, and differentiating learning.



Access the Teacher Success Pathways on your home page or in Teacher's Corner on *HMH Ed*

Build teacher confidence with personalized learning

Plan

Review planning resources and navigate digital tools to understand module and lesson structures, create engaging lesson plans, and apply prioritization and pacing strategies in the planning process.

Teach

Become acquainted with key instructional resources to organize your classroom and watch a short model lesson to see how the resources come together in a lesson.

Assess

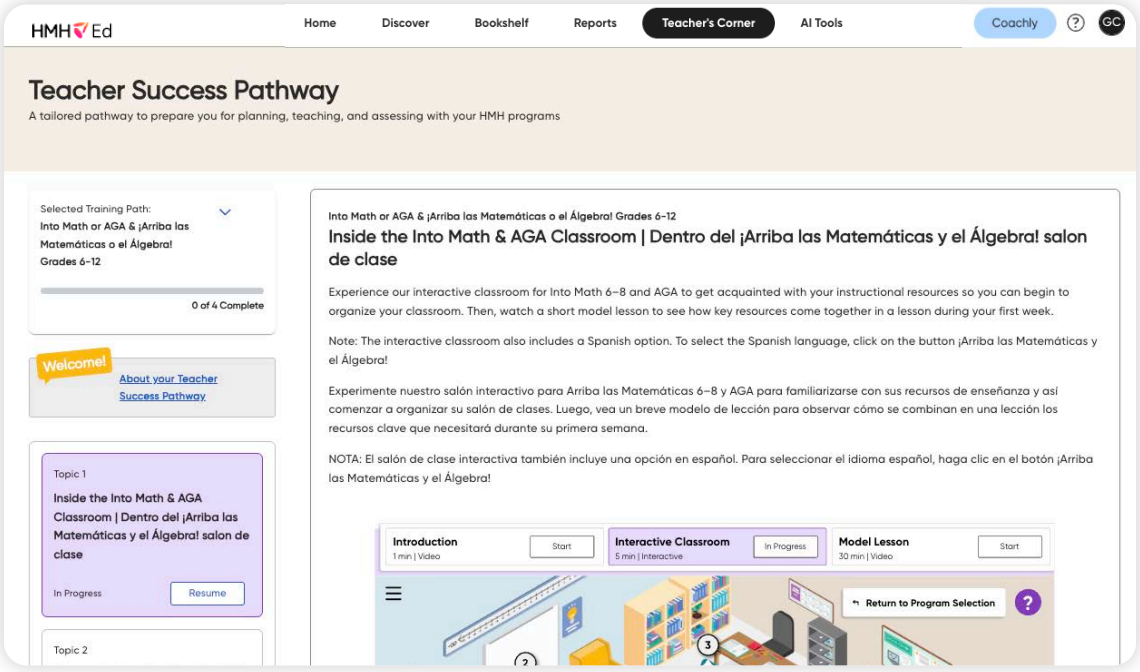
Explore year-round program assessments, how to align instruction with those assessments, and how to use reporting on *HMH Ed* to monitor student learning.

Included with program purchase

FOR TEACHERS

On-demand professional learning

The learning journey continues with yearlong support in Teacher's Corner for every teacher, including those new to teaching math. Here they will find articles, videos, quick tips, and live events on popular topics such as number sense, data-driven intervention, small-group learning, and using math tools effectively.



Teacher's Corner is aimed at deepening program knowledge and strengthening instructional practices.

Teacher's Corner resources

Access a library of instructional resources to support *Into Math* implementation.

Attend live events hosted by experts and practicing teachers.

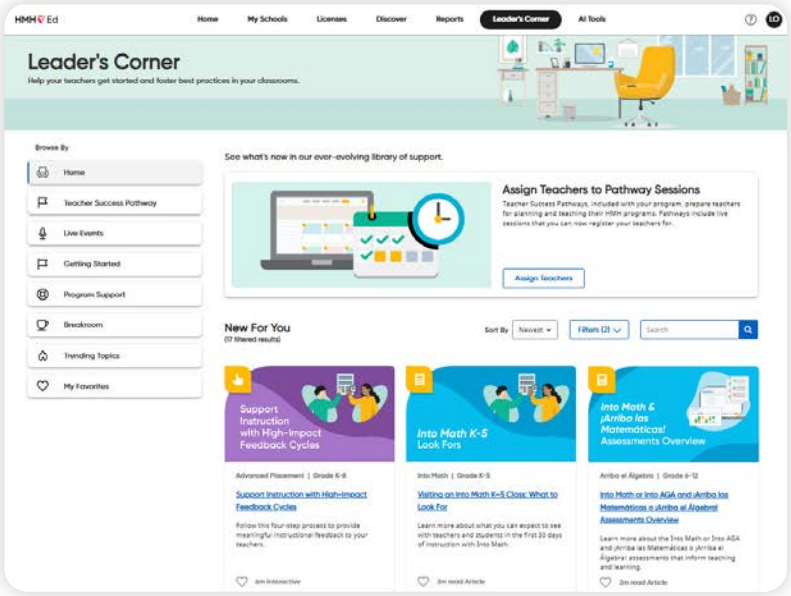
Included with program purchase

FOR LEADERS

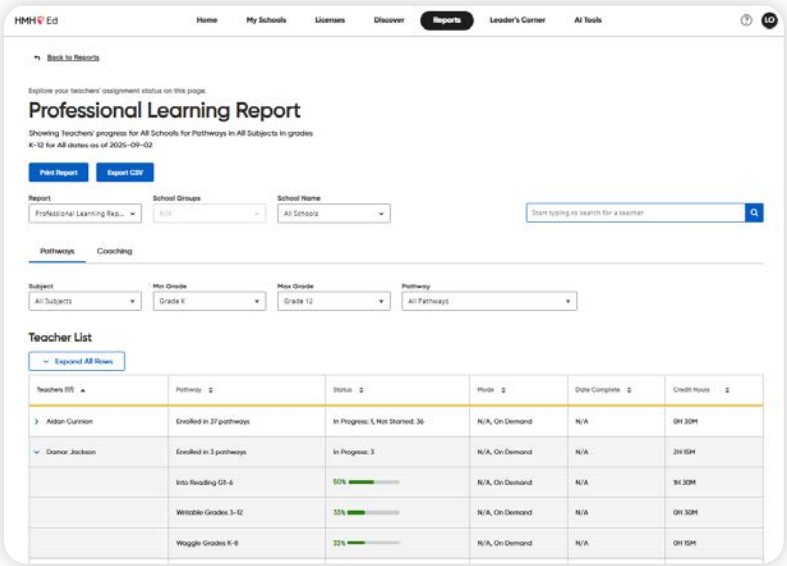
Ongoing learning and support

We've made supporting diverse learning environments more manageable for leaders with live online Leader Success sessions and start-up resources on Leader's Corner®.

- Leader Success Live Online 1-hour session to kick off a successful implementation
- Leader resources to encourage *Into Math* utilization
- Options to easily filter by teacher and leader resources



Leaders have yearlong access to resources to help them lead a successful program implementation.



Pathway Reports can be found under the professional learning reports tab on *HMH Ed*.

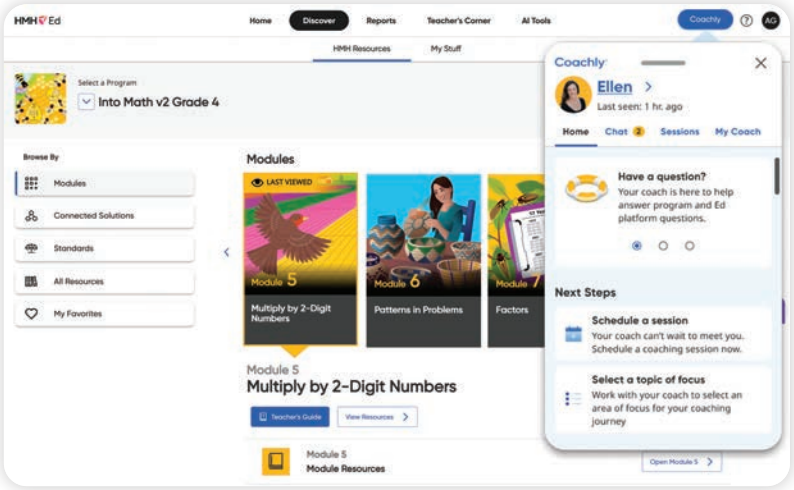
Access the Pathway Reports on *HMH Ed* to encourage teachers on their program implementation journey and get insights on:

- Teacher Success Pathway completion by school, subject, grade, or pathway
- Individual teacher pathway enrollment, status, and total credit hours

FOR TEACHERS

Personalized instructional coaching

HMH Coachly® is a year-round subscription for teachers that provides unlimited support from a thoughtfully matched instructional coach via the *HMH Ed* platform. From *Into Math* implementation to personalized teaching strategies, HMH Coaches are invested in teacher success every step of the way.



Thoughtfully matched instructional coaches

Coachly pairs each teacher with a highly trained, certified coach who has mathematics and classroom experience.

Over 70% of HMH coaches have an advanced degree, and each brings varied experience in teaching multilingual learners, students with exceptionalities, and intensive intervention. Our coaches provide expert guidance for teaching *Into Math* and *¡Arriba las Matemáticas!*.

What teachers are saying about the HMH Coaching experience

98%
gain new instructional strategies to try in their classrooms

98%
say HMH instructional coaches are knowledgeable and skilled in facilitating adult learning

98%
gain knowledge and strategies that will help them become better teachers

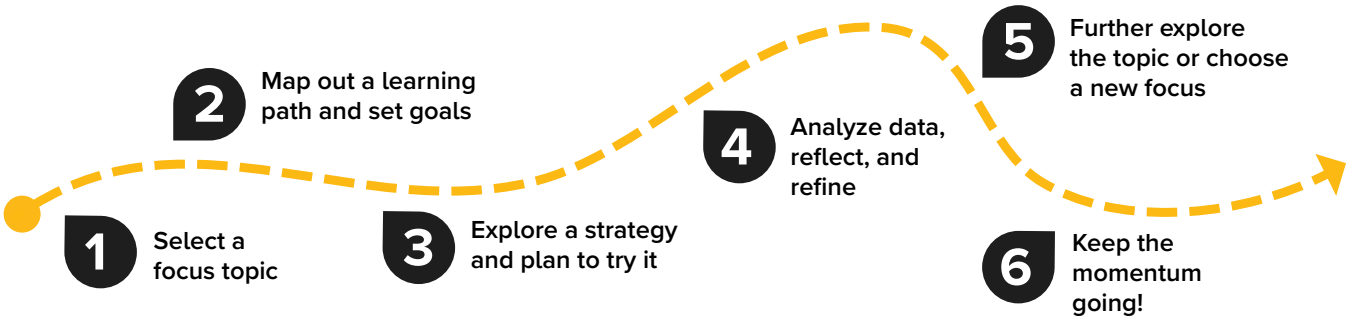
FOR TEACHERS

Evidence-based coaching framework

HMH's proven framework is designed to promote a unified teaching culture and a shared approach to setting, measuring, and achieving professional goals.

The Coachly topic journey

Preview the journey a teacher and coach follow through a focus via *Coachly*.



Explore relevant coaching topics

Topics within the HMH Coaching Framework are centered around high-impact teaching strategies for each grade level and subject.

Instructional focus topics

- Learning dispositions and behaviors
- Discourse and questioning
- Planning and pacing
- Differentiation and small-group instruction
- Assessment and progress monitoring

Math content topics

- Building conceptual understanding
- Building procedural fluency
- Developing reasoning and discourse
- Growing problem-solving capacity

FOR TEACHERS

Create a shared learning experience

In-person coaching day

An HMH instructional coach will work with up to four individual teachers or four groups to address classroom challenges aligned to district PD goals.

In-person coaching days include:

- Personalized resources to support learning and ongoing practice
- Facilitation of group discussion and collaboration activities
- A suite of program-aligned session topics to select based on district goals

Program-aligned courses

Power up your Math PLCs with program-aligned courses that connect high-impact, research-based strategies with your *Into Math* program resources. Each course includes three in-person sessions and six 1-hour live online study groups.

From Reasoning to Action: Building Strong Math Thinkers with Into Math and ¡Arriba las Matemáticas!

1. Conversations that Count: Fostering Reasoning and Discourse
2. Talk Like a Mathematician: Using Language Routines for Deep Reasoning
3. Make Math Thinking Explicit: Using Tools and Representations

FOR LEADERS

Collaborative partnership for leaders
